I would like to register my objection to the proposed settlement in US v. Microsoft. Specifically, I object to section III.J.2.c wherein Microsoft reserves the right to refuse to disclose information to entities which don't meet Microsoft's standards for business viability. Given our American tradition of individual effort and entrepreneurship, I find this claim that a citizen must prove his business viability to Microsoft's satisfaction before being allowed to compete in the marketplace to be most distasteful.

Thank you,
